

Best Doctors®

Gallup® has audited and certified Best Doctors, Inc.'s database of physicians, and its companion The Best Doctors in America® List, as using the highest industry standards survey methodology and processes. These lists are excerpted from The Best Doctors in America, 2015-2016 database, which includes over 40,000 U.S. doctors in more than 40 medical specialties and 400 subspecialties. The Best Doctors in America, database is compiled and maintained by Best Doctors, Inc. For more information, visit www.bestdoctors.com or contact Best Doctors by telephone at 800-675-1199 or by email at research@bestdoctors.com. Please note that lists of doctors are not available on the Best Doctors Web site.

Best Doctors, Inc., has used its best efforts in assembling material for this list, but does not warrant that the information contained herein is complete or accurate, and does not assume, and hereby disclaims, any liability to any person or other party for any loss or damage caused by errors or omissions herein, whether such errors or omissions result from negligence, accident, or any other cause.

No commercial use of the information in this list may be made without the permission of Best Doctors, Inc. No fees may be charged, directly or indirectly, for the use of the information in this list without permission.

BEST DOCTORS, THE BEST DOCTORS IN AMERICA, and the Star-in-Cross Logo are trademarks of Best Doctors, Inc., registered in the U.S. and other countries, and are used under license.

Best Doctors, Inc. is transforming and improving health care by bring-

ing together the best medical minds in the world to help identify the right diagnosis and treatment. The company's innovative, peer-to-peer consultation service offers a new way for physicians to collaborate with other physicians to ensure patients receive the best care.

Headquartered in Boston, MA, the global company seamlessly integrates its services with employers' other health-related benefits, to serve more than 30 million members in every major region of the world.

More than a traditional second opinion, Best Doctors delivers a comprehensive evaluation of a patient's medical condition — providing value to both patients and treating physicians. By utilizing Best Doctors, members have access to the brightest minds in medicine to ensure the right diagnosis and treatment plan.

Best Doctors' team of researchers conducts a biennial poll using the methodology that mimics the informal peer-to-peer process doctors themselves use to identify the right specialists for their patients. Using a polling method and balloting software, that Gallup® has audited and certified, they gather the insight and experience of tens of thousands of leading specialists all over the country, while confirming their credentials and specific areas of expertise.

The result is the Best Doctors in America® List, which includes the nation's most respected specialists and outstanding primary care physicians in the nation. These are the doctors that other doctors recognize as the best in their fields. They cannot pay a fee and are not paid to be listed and cannot nominate or vote for themselves. It is a list which is truly unbiased and respected by the medical profession and patients alike as the source of top quality medical information.
